

Road Code Pathways Awarua

Finding it hard to learn the road code?

There is a lot to learn about safe road use to become a licensed driver. Pathways Awarua helped me make sense of it all with free online learning. The interactive content makes learning the road rules and learning to drive safely both easy and fun ... the way it should be!

What is Pathways Awarua?

Pathways Awarua is a free, fun and easy way to improve your numeracy and literacy skills online, within a real life context, such as learning to drive.

In collaboration with NZTA, Pathways Awarua has developed a **Road Code** pathway that helps you prepare for your driver licence.

There are other pathways available to help you improve your essential skills in reading, writing, listening and maths.

Anywhere, anytime.

Pathways Awarua is available on your computer, tablet, or smartphone.

You can download the **Road Code** app on the App Store and Google Play. Once you log in, the app works with or without an internet connection, giving you more opportunities for learning – anywhere, anytime (except when you're driving)!

How do the modules work?

The modules on the **Road Code** pathway include finding out about the learner and restricted licence process; and important skills like scanning for hazards, reading road signs, how to give way, parking and how to keep safe on the roads.

The modules are engaging and interactive. You can read the 'problems' yourself or the audio can read them to you.

You get instant feedback. If you get a 'problem' wrong you get help with the answer, and you can try as many times as you need to.

You learn at your own pace. Earn points, track your own progress and gain certificates as you go. And it's simple to register and get started!

How do you register?

Go to www.pathwaysawarua.com and click on the learner registration button. Choose a username and password.

If you have a 'join code' from your educator/employer enter it, otherwise choose the 'no join code' option. Now you can select the **Road Code** pathway and start learning straight away.
